WORKBENCH

OUR MINDSET

Badass Workbench is founded on the same principles that make you tick: hard work, exceptional craftsmanship, outstanding customer service, and honesty. We are devoted to the people who don't mind getting dirty and beat up to get the job done - **you are our heroes.**

BADASS WORKBENCHES

At the end of the day you're smeared with grease, covered in burn holes, dirt and mud, cuts and bruises. But you don't care. Because you're badass. You're legendary. And your legendary work deserves a badass workbench.

Made by hand in the USA out of heavy gauge steel for superior strength and durability, you can weld, cut, grind, pound, or do whatever badass things you do for the rest of your life. With patented swivel drawers, your tools are easily within reach of whatever grease-stained fingertips you have left. We've even removed all the wearable parts so your drawers will never break down, bind, or fail. Our lifetime warranty proves it.

And since we know this isn't your first rodeo, we can customize a bench to your specifications. From the amount of drawers and the direction of the swivel, to specific dimensions and color, your bench will fit you and your work flow like a glove.

BADASS WELDING TABLES

What's more hardcore than metal and fire? Nothing. Except our badass welding tables. And your epic work needs a badass table.

I mean, really, what sort of projects can you crank out on one of those 40 pound pieces of sh*t from a box store? And we know you've probably laid out a project on your mama's kitchen table at least once. And don't even mention that excuse of a table you dug out from the corner of your shop. Ballsy places to weld. But badass? No.

Our welding tables are made by hand in the USA with heavy gauges of steel for superior strength and durability. You can weld, cut, grind, pound, or do whatever badass things you do for the rest of your life on this welding table. Our lifetime warranty proves it.

And since we know this isn't your first rodeo, we can customize a table to your specifications. From specific dimensions to color, your table will fit you and your work flow like a glove.
